Darlene Franklin Campbell, M.A., is an award-winning poet and novelist from southern Kentucky. She is also a first-grade teacher and a visual artist. She is proud of her Appalachian heritage and writes about the region and its people, not as an outsider looking in with romantic notions, but as one who has risen up out of the Kentucky soil with roots going 400 years deep, touching long-gone Scots-Irish settlers, Native American bloodlines, and Melungeon legends. In her spare time, Darlene is an avid disciple of martial arts and enjoys spending time with friends, family, and nature. Genealogy has been a passion for her since she first heard her father talk about her great-great-grandfather when she was nine.

Gary R. Coleman is a full-time dentist in Stanford and Lexington. He is a collector of antique hand tools, especially wooden hand-planes, with planes from around the world, including many states, and central Kentucky. He graduated from EKU with a teaching degree in Industrial Education/Industrial Technology and taught Industrial Arts in high school and at EKU. He was a design engineer at the Square D Company in Lexington for six years. He has been a dentist for 34 years.

Carolyn Crabtree, retired Administrative Assistant for the Boyle County tourism office, is a former mathematics and English teacher. She has been researching genealogy for over 40 years and now concentrates on preserving Boyle County (especially Forkland) history. She helped to compile several books for the Forkland Community Center.

Harold Edwards has had a lifelong interest in American history, especially from colonial times to the Civil War. He collects and restores artifacts, has been a consultant to the Kentucky Department of Parks and several private museums, and has worked on several archeological projects. Recently, he has appeared on the KET show “Kentucky Life” with Dave Shuffett, discussing Jesse James. He was born and raised in Boyle County, Kentucky.

Mary Girard is a native of Danville, Kentucky. She has a B.A. in Art History and Museum Studies from Beloit College in Wisconsin and is an apprentice-trained art conservator. After living in Florida for 15 years, her family returned to Danville. For the past two years, she has worked at the Boyle County Public Library as their Assistant Reference Librarian specializing in local history and genealogy.
